INTRODUCING
DULUX COLOUR OF
THE YEAR 2023

WILD WONDER™

(Winter's Silence 50YY 49/191)

"The **seeds of inspiration** for this year's colour story were planted at our Trend Forecast in 2021. It's an event we host every year, inviting international design experts to share their insights with us about where the world is heading, so we can respond with **colours that will resonate** in 2023.

With the natural world at the top of the global agenda, we've put **nature at the heart** of our story this time. Not only have we chosen a Colour of the Year inspired by nature – Wild Wonder™ – each of our four new palettes reflects the different ways that **nature teaches and nurtures** us. The earth is the source of everything, bringing us solace, inspiration and a myriad of blueprints for living. Our 2023 story is about helping you **capture the magic** of nature and bring it into your home."
