PROUD COLOUR STORY

“Every year we share insights at our Global Forecast Meeting to find out the mood of moment around the world. This year, we discovered that there is a growing sense that life must be better elsewhere. In times like these, there’s a desire to break free, press reset and welcome in the new.

To inspire us, our homes and spaces need to fill us with optimism, pride, imagination and creativity. So, our colour experts have created a Colour of the Year and three colour stories that provide you with just the colours you need today. Our uplifting yellow helps you break out of your bubble. With True Joy™ you can create joyful pops of colour and add excitement to your walls. It can be used on its own as a bold statement colour or as an accent colour in combination with a colour story. Either way, it allows you take a leap and transform your home with confidence.”

HOW TO FREEFORM WITH CONFIDENCE

All the colours in our 2025 collection are made to work together. By creating a freeform shape with multiple colours, you can create a subtle but striking feature wall. Follow our easy step-by-step guide to discover how to do it or read the article and watch the accompanying video at dulux.com

1 Gather your paint materials.

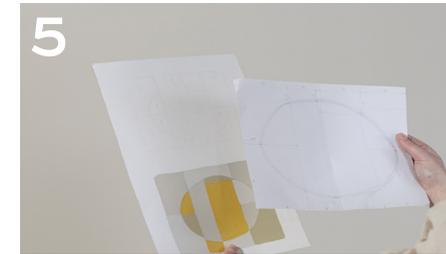

2 Sketch out your designs and then choose your favourite.

3 Prepare your base colour (the one which is used most).

4 Paint your first colour with a roller. This acts as a base layer.

5 Double check your design.

6 Loosely measure and mark your horizontal and vertical lines with chalk.

7 Freehand your shape and then apply your second colour.

8 Continue the process with your third colour.

9 Make sure to use a paint brush to cut in.

10 Add the finishing touches for a tight design.

11 True Joy™ on your walls brings a smile to your face.

12 Celebrate and enjoy the end result for years to come.
