- Help wall to stay clean longer

**AkzoNobel**

# Keep your dream home looking new, longer.

## Homes with PROTECTION

Your house is your home, it is a reflection of who you are. Within its walls, countless events took place to create wonderful memories. Hence, it deserves the ultimate protection to keep it looking good and new for longer!

## Give your home the ultimate protection

Dulux Weathershield® range is a superior all-weather protection paint that offers the ultimate protection for exterior walls and roof. Its many innovative features include UV resistance, rainproof and specially formulated KeepCool™ technology.

Dulux Weathershield® with Powerflex™ technology provides 6x more protection against cracks\*, to prevent rain and moisture from seeping into your exterior walls, making your walls look new even longer!

Dulux KeepCool™ technology helps reduce surface temperature by up to 5°C# to keep your home cooler as well as to reduce energy consumption.

\* Hairline cracks

# Compared to conventional exterior paint. Test report conducted by BSD (Building System & Diagnostic Pte Ltd).

\*\* Terms and conditions apply. Please refer to Dulux Weathershield® Warranty Agreement.

## Long-lasting protection with smart functionality

Now Dulux Weathershield® range, with Dulux NEW Advanced Algae & Fungus Guard, a Smart Release Technology, is designed to give 2x longer protection against fungus and algae attack, making walls stay clean even longer.

# The Best All-Weather Protection For Your Home

**Dulux Weathershield® Powerflex™**

Powerflex™ Technology stretches exterior paint film by six times more\*\* for greater protection against cracks and moisture.

\*\* Compared to standard premium exterior paint

**Dulux Weathershield®**

KeepCool™ Technology reduces surface temperature by up to 5°C\*\*\* for cooler interiors.

\*\*\* Compared to conventional exterior paint. Test report conducted by BSD (Building System & Diagnostic Pte Ltd).

**Dulux Weathershield® Roof**

Thick, elastic waterproof coatings protect roofs against cracks and prevent roof leaks.

**Advanced Algae & Fungus Guard** Over time, algae and fungus attacks damage walls and leave stained, uneven patches. Dulux Advanced Algae & Fungus Guard prevents such damage with 2x longer protection, compared to conventional exterior paints. It delivers superior protection against algae & fungus to keep walls looking good.

**Keep Cool** Dulux KeepCool™ Technology reduces exterior wall surface temperature by as much as 5°C\*\*\* with special pigments to deflect UV rays. It keeps the heat out to make the interiors cooler so energy is conserved while comfort is uncompromised within the home.

**Stay Clean** Ordinary elastomeric paints stretch to cover hairline cracks. However, dust and dirt stick on the paint film, making the wall look dirty more quickly. Dulux Powerflex™ Technology resists dirt and dust better than other elastomeric paints, allowing rainwater to wash these away more easily. Hence, exterior walls stay clean for longer.

\* Applicable to Dulux Weathershield® Powerflex™ only.

Disclaimer: When wet mud dries on the wall, this results in stains and discolouration. To prevent this, clean the wall thoroughly with water before the mud dries off.

## Dulux Weathershield<sup>®</sup> Roof Premium roof paint

- Dulux KeepCool™ reflects heat to reduce surface temperature by up to 5°C\*
- Protects against colour fading caused by UV
- Advanced Algae & Fungus guard
- With Dirt Guard to stay clean for longer

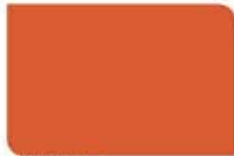

\* Compared to conventional exterior paint. Test report conducted by BSD (Building System & Diagnostic Pte Ltd).

\*\* Terms and conditions apply.

## Give your home the ultimate protection with Dulux Weathershield Powerflexx™

Tiny hairline cracks cannot be avoided, as concrete walls cure and dry - these are also caused by slight movements on the ground and extreme changes in the weather. Through these cracks, rain and moisture seep in, damaging the walls which results in peeling, mould and ugly patches.

Available:  
White DSWFW15538

Available in  
1, 5 and 18 litres

### SUPERIOR CRACK PROOF

Paint film latex stretches as much as 6x more than conventional premium exterior paint

Covers and prevents resurfacing of hairline cracks

### RAIN PROOF

Superior rain resistance

Covers cracks so rain and moisture cannot seep in

\* Applicable to Dulux Weathershield<sup>®</sup> Powerflexx™ only.

We have reproduced paint colours as faithfully as modern printing techniques allowed. Please note that the shape, size and lighting of a surface can influence the appearance of the final colour.

Over 2000 colours  
available with  
**TINTING**
